

# Using the On-line Spare Parts Catalog

The following screen shots will walk you through the Spare Parts Catalog Experience

## How to Navigate:

The Category page allows you to select the assembly from which you are searching for parts. \_\_\_\_\_

After you select a product you will be taken to an exploded view of the main assembly. Here you can select to view specific part information by clicking on the reference number in the image or selecting from the table below. \_\_\_\_\_

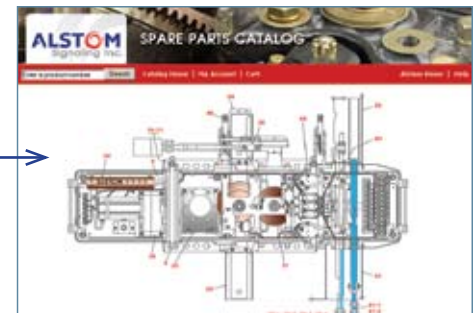

The product detail page will give you information, like price and specifications, regarding the part you are looking for. \_\_\_\_\_

To request a quote, click the add to cart button

Here you will be prompted to log in; if you have not created an account, follow the instructions and in just seconds you will have a user account that will allow you to request quotes. \_\_\_\_\_

## Helpful Tips

### Pull down menu:

Use this for fast selection.

### Sort:

You can change the order of the table.

### Search:

Available for key word search, part number search or partial information search.

### Supporting Documents:

Alstom Part Number Cross Reference Guide

Installation, Operation and Maintenance Manuals.

### RFQ Cart:

#### Visitors Cart

Every visitor to our online shop will be given a 'Visitor Cart'. This allows the visitor to store their products in a temporary RFQ cart. Once the visitor leaves the online shop, so will the contents of their RFQ cart.

#### Members Cart

Every member to our online shop that logs in is given a 'Member Cart'. This allows the member to add products to their RFQ cart, and come back at a later date to finalize their selections. All products remain in their RFQ cart until the member has either checked them out or removed them.

### Added functionality

If a member adds products to their 'Visitor Cart' and decides to log in to the online shop to use their 'Member Cart', the contents of their 'Visitor Cart' will merge with their 'Member Cart' contents automatically.
